Welcome to Prominence Care Centers powered by Vera Whole Health!

Your employer has added the care centers as a network option as part of your medical health plan. This provides unlimited access to exclusive primary care in partnership with Vera Whole Health.

A full-time medical team and health coaches are dedicated to helping you get healthy, manage your healthcare costs, and coordinate all the care you need.

The Vera Difference

We've designed the entire Vera experience with you in mind. At its most basic, it means time and empathetic listening. We've heard from so many patients that providers don't take the time to listen to them.

You should be able to come to the care center for most of your healthcare needs. If you need care outside of the care center, we'll coordinate it and conduct any follow-ups.

We hope you'll put the team to the test – challenge them with all your questions, take your time, and ask for more. We'll be there for you.

FAQs

Q: What if I already have a primary care doctor?

A: The Vera medical team will be there for you no matter who you see outside the care center. If you want to keep your primary care doctor, consider us an extension of your care team. It's even a great idea to put the Vera medical team in touch with your other providers so they can give you the exact care you need, when you need it. Your health always benefits when everybody communicates.

Q: Will my personal health information be secure?

A: Yes, the care center is a HIPAA-compliant, private care provider and will keep your health information confidential.

Q: Can I fill a prescription at the care centers?

A: Yes, select medications are dispensed at no cost to you as prescribed by Vera providers. All other prescriptions written by Vera providers can be filled at your local pharmacy, and are covered under the terms of your medical plan.

Prominence Health Plan complies with applicable Federal civil rights laws and does not discriminate based on the basis of race, color, national origin, age, disability, or sex.

Quick Facts:

Visits are by appointment only for quicker access and longer visits. Same-day and next-day appointments are available. Our goal is no wait time and as much time with your provider as you need.

Your costs are covered. All visits and Vera-dispensed medications are free to you.

Personalized care team. Vera care teams work with patients to create custom health plans, and can coordinate all the care they need.

The care center is HIPAA compliant. Your medical information is confidential.

Prominence Health Plan has partnered with Vera Whole Health to bring a whole health approach to Prominence members in our communities.

The Vera model was designed to serve as the hub for care delivery and support an integrated team focused on total member health.

Services include:

- **Primary and preventive care:** Annual evaluation, episodic care, chronic disease management, pediatrics
- **Formulary and laboratory:** On-site labs, provider-dispensed medications, injections and immunizations
- **Wellness:** Face-to-face coaching, health assessments and biometric screens
- **Management services:** Risk stratification, referral management and population health management

Vera clinics generate a 25% net return on investment due to a substantial reduction in member health claims – ER, inpatient/outpatient, specialty care, and labs/Rx. And they generate cumulative savings over time due to continually improving member health and cost containment from network efficiency.

We focus on whole health care and exceptional care center experiences to improve patient outcomes and empower employees to take ownership of their own health.

“Instead of going to the ER for every malady, which drives up costs, our staff can go to the care center and come up with a plan for their whole life instead of a plan for the moment. ... You are going to find that people at the care center are listening to you and really take the time to get to know you as a person. And that’s been missing from medical care for a long time.”

Jose Delfin Ed.D.
