Probation: 12 Months

FIRE INSPECTOR I

DEFINITION

Under general supervision, contributes to fire prevention by ensuring that minimum fire protection standards are met; works in other fire prevention and investigation areas; performs related duties as required.

EXPERIENCE AND TRAINING REQUIREMENTS

An Associate's degree from an accredited college or university in Fire Science, Fire Administration, Fire Management, General Studies, Business Administration, Public Administration or a related field.

AND

One year of experience in Fire Code enforcement, fire investigation and/or fire suppression work or an equivalent combination of education and experience.

OR

Three years of experience in fire code enforcement, fire investigation and/or fire suppression work or an equivalent combination of education and experience.

LICENSE OR CERTIFICATE

Required at time of application:

Certification by the International Code Council as a Fire Inspector I or equivalent.

Required at time of appointment:

A valid driver's license.

Required at time specified below:

Certification by the International Code Council as a Fire Inspector II within six months (6 months) of appointment.

Certification by the International Code Council as a Fire Plans Examiner within nine months (9 months) of appointment.

Youth Firesetting Prevention and Intervention Certification within twenty-four (24) months of appointment.

International Association of Arson Investigators Fire Investigator Technician (IAAI FIT) Certification, or equivalent within thirty-six (36) months of appointment.

Must Possess NWCG certifications S-130/S-190 within one year (12 months) of appointment.

DISTINGUISHING CHARACTERISTICS

This is the entry and training level position in the Fire Inspector class series that provides for progression to the Fire Inspector II level upon meeting the requirements of the class and recommendation of the appointing authority. Incumbents perform a variety of Fire Prevention assignments and receive continuous on the job training. Additional training may be required to achieve the necessary certifications. This class is distinguished from the Fire Inspector

II class by the fact that incumbents perform a narrower range of duties under closer supervision. The Fire Inspector I is expected to progress to Fire Inspector II after successful completion of required training requirements and having obtained all required certifications and experience for the Fire Inspector II position.

SUPERVISION EXERCISED

This position exercises no supervision.

EXAMPLES OF DUTIES *(The following is used as a partial description and is not restrictive as to duties required.)*

Ensures that existing buildings meet and maintain minimum fire protection standards for fire and life safety by inspecting apartment units, health care facilities, schools, day-care facilities, and other high fire and life safety hazard occupancies, to identify and abate hazardous conditions; makes follow-up inspections and provides technical assistance and legal enforcement where necessary to support inspections done by the Suppression Division.

Responds to citizen complaints of hazardous situations and buildings to eliminate hazardous conditions.

Prepares professional oral and written inspection reports, business correspondence, memoranda, reports and other related documentation using a computer.

Inspect various properties for compliance with hazardous materials codes and regulations, enforce laws, ordinances and regulations pertaining to the servicing of, removal of or tampering with fire prevention equipment, the accumulation of combustibles, and other state and local fire laws; issue notices of violation and citations when required.

Minimizes fire loss by teaching fire prevention and control to increase public fire safety awareness to the greatest possible degree; responding to requests for fire safety education presentations and providing programs for the citizens of the District such as smoke detector programs, fire brigade and seasonal fire safety programs.

Maintains the fire inspection database and keeps information up to date.

Performs plan review of commercial and residential properties utilizing the required and adopted District Codes and Ordinances.

Instructs the property owners and occupants regarding the removal of fire hazards; instructs the general public regarding fire safety and prevention methods; prepares for, and delivers, public informational and educational presentations to various organizations, schools and the general public on a variety of fire safety and prevention topics and recommend methods for preventing/correcting fire hazards.

Determines the origin and cause of fires that occur within the geographic area.

May be called upon to provide expert testimony on fire loss, fire investigation and codes, ordinance and regulation enforcement.

JOB RELATED AND ESSENTIAL QUALIFICATIONS
