About Your **Health Plan Services**

Thank you for choosing us as your healthcare partner!

We know your health is most important to you and we give you access to a comprehensive selection of providers, programs and services, all backed by exceptional customer support.

Find a Doctor

Search online, filter by region, facility and provider type; confirm in-network emergency centers and urgent care facilities, and find downloadable directories. Visit www.prominencehealthplan.com.

Select a Primary Care Provider

Prominence members are encouraged to select a Primary Care Provider (PCP) to manage all their medical care. A collaborative relationship with a PCP is important because he/she can help ensure timely receipt of recommended preventive care and can advise if specialty care is needed and appropriate. For help determining a PCP for your care or to change your existing PCP, call our customer service team at **800-863-7515** or log-in to the secure member portal.

Emergency Care

When you see a doctor or other health provider for emergency care, you may owe certain out-of-pocket costs like a copay, coinsurance, and/or a deductible. You may also incur other costs or have to pay the entire bill if you seek care at an Emergency Room for non-medical emergencies. Patients are now protected from out-of-network balance billing when receiving emergency medical care.

Make sure to know which hospitals are in-network and, whenever possible, receive emergency care from those in-network emergency rooms.

Secure Member Portal

You can access your plan benefit information like your schedule of benefits and Evidence of Coverage (EOC). You can also view claims information, update your Primary Care Provider selection, and find out if you've reached your out-of-pocket maximum. **Visit www.ProminenceMember.com.**

Pharmacy Benefits

National Network Access through Cigna®

Out-of-area network access available only to members enrolled in a PPO, POS or Freedom health plan

Through a collaboration with Cigna, Prominence is pleased to now offer a network for members who live, work or travel outside of Nevada.

Cigna has an expansive national network that includes more than 6,100 hospitals, more than 1 million physicians and multiple ancillary providers across the country.¹ As with other networks, it will always be the member's responsibility to validate that a provider they are seeing is in the network.

IMPORTANT! Please note the Cigna PPO network² is available for national network access outside the state of Nevada. It is not available within the state of Nevada. For in-state providers, visit www.prominencehealthplan.com.

¹ Based on Cigna analysis, September 2022. Subject to change.

² The Cigna PPO Network refers to the health care providers (doctors, hospitals, specialists) contracted as part of the Cigna PPO Network for Shared Administration. All Cigna products and services are provided exclusively by or through operating subsidiaries of Cigna Corporation, including Cigna Health and Life Insurance Company. The Cigna name, logo, and other Cigna marks are owned by Cigna Intellectual Property, Inc. Cigna is an independent company and not an affiliate of Prominence Health Plan.

What You Need to Know About Prescription Drug Coverage

Pharmacy Formulary

The Prominence formulary helps manage the cost of prescription drugs and includes a range of medications. It may not include every drug from every manufacturer.

► To access the Prominence Health Plan pharmacy formulary, visit www.prominencehealthplan.com.

Formulary Design

The Prominence formulary features different copayment amounts for medications in tiers. If a brand-name product is listed in the "Preferred Brand" tier and its corresponding generic product is not listed in the "Generics" section, then a generic version of the medication is not available.

Tier 0 - Preventive/EHB (Essential Health Benefits)

Tier 1 - Generic

Tier 2 - Preferred Brand

Tier 3 - Non-preferred Brand

Tier 4 - Specialty

Pharmacy by Mail

If you take prescribed medications regularly, you can have them delivered right to your door AND pay less out-of-pocket. The Pharmacy by Mail program offers at-home delivery service for medications you may take for chronic or long-term conditions. You can receive a 90-day supply of Tier 1, Tier 2 and Tier 3 medications for a reduced cost. Tier 0 Preventive Tier drugs are also available via the Pharmacy by Mail program and remain no charge.

Specialty Pharmacy

Tier 4 specialty medications include self-injectables and medications given by other routes of administration. Specialty Drugs require the coinsurance listed on your schedule of benefits. Insulin is not considered a Specialty Drug. Some specialty drugs must be obtained through a specialty drug provider.

Step Therapy

Step Therapy is a process for finding the best medication to help treat an ongoing condition like arthritis, asthma or high blood pressure. Because one drug must be tried before the next drug can be tried, these are considered the "steps" of therapy.

Step Therapy requires the use of one or more Step One medication(s) – often a more affordable generic medication that has been proven effective for most people with a condition – before members can get coverage for a similar, more expensive, brand-name drug. This means that Step Two drugs will not be covered unless your provider contacts the Prominence Pharmacy Team to obtain Prior Authorization.

Prior Authorization

Prior Authorization means that Prominence must approve certain medications in order to be covered under your medical plan. A Prior Authorization form should be completed and submitted by your prescribing doctor requesting coverage for: a specific drug within the formulary; a non-formulary drug for which there is no suitable alternative available; or any pharmacy therapy or quantity limit overrides. The Prominence Pharmacy Team will work with your provider to make sure coverage is appropriate for certain medications.

To learn more, visit www.prominencehealthplan.com or call the Pharmacy Health Desk at 833-775-6337 (MEDS).

Understanding Emergency Care & Your Network

What is an Emergency?

Medically Necessary Emergency Services are those health situations where a sudden onset of a medical condition is presented by symptoms of severity that an average person would believe the absence of immediate medical attention could result in:

- Serious jeopardy to the health of a member
- Serious jeopardy to the health of an unborn child
- Serious impairment of a bodily function
- Serious dysfunction of any body organ or part

Examples of emergency illness/injuries include:

Heart attacks, severe chest pains, burns, loss of consciousness, sudden paralysis/slurred speech, bleeding, poisoning and severe trauma.

Trauma is considered a body wound or shock produced by sudden physical injury, as from violence or an accident.

What is a Provider Network?

A provider network is a network of health care providers contracted with Prominence Health Plan to provide care to our members.

What is an Out-Of-Network Provider?

Any doctor, facility or medical group that does not have a contract with Prominence Health Plan is considered an out-of-network provider.

What Happens if I Receive Emergency Services From an Out-Of-Network Provider?

Under the Affordable Care Act and the No Surprises Act, if a member receives Emergency Services from an out-of-network provider, the provider is prohibited from collecting an amount for Medically Necessary services that exceeds the in-network copay, coinsurance or deductible plan amounts.

For a complete list of all in-network providers and facilities, visit www.prominencehealthplan.com and use the online tool under the "Find a Doctor Tab". You can search by provider, facility and even geographic region.

Understanding Emergency Services

ALTERNATIVES TO THE EMERGENCY ROOM

Call or Video Telemedicine services 24/7 at 800-TELADOC.

Address concerns and prescribe medications, when appropriate.

Visit an urgent care. Receive prompt care with a smaller copay than a visit to an in-network ER.

Doctoroo is bringing urgent care direct to your home! The cost is the same as a PCP copay, so it's more affordable than the traditional ER, and services are available 7 a.m. to midnight, 365 days/year.

Visit a CVS MinuteClinic® in your local neighborhood or any location nationwide. No appointments are required and you can pay the same out-of-pocket cost as a Primary Care Provider copay.
